Publications in Symposia, Conferences and Reports

1. M.M. Aggarwal, V. S. Bhatia, G. Sood and Y. P. Viyogi: "Event by event DCC search in Pb-Pb collisions at 158 AGeV", Proc. DAE Symposium on Nucl. Phys. Vol. 44B, 304, 2001.

2. M. M. Aggarwal, S. K. Badyal, V. S. Bhatia, S. Chattopadhyay, S. das, A. K. dubey, M. R. Duttamajumdar, M. S. Ganti, A. Kumar, S. Mahajan, D. P. Mahapatra, L. K. Mangotra, D. K. Mishra, B. Mohanty, T. K. nayak, Susanta K. Pal, B. V. K. S. Potukuchi, R. Raniwala, S. raniwala, R. N. Singaraju, Bikash Sinha, M. D. Trivedi, R. Veenhof, Y. P. Viyogi: "Prototype tests of honeycomb chamber with new granularity for ALICE-PMD", Proc. DAE Symposium on Nucl. Phys. Vol. 44B, 414, 2001.

3. Jane Alam: "Photons from Quark Gluon Plasma and Hot Hadronic Matter", Plenary talk delivered at the 4th Intnl. Conf. on Physics and Astrophysics of Quark Gluon Plasma, Jaipur, India, Nov 26-30, 2001.

4. Jane Alam: "Photons from Nucleus-Nucleus Collisions at Ultra-Relativistic Energies", Intnl. Nuclear Physics Conference (INPC-2001), July 30-Aug. 3, 2001, Berkeley, U.S.A, Page 328.

5. P. Banerjee, K. Krishan, S. Bhattacharya and C. Bhattacharya: "Fusion of drip-line nuclei at near barrier energies", Proc. DAE Symposium on Nucl. Phys. Vol. 44B 244, 2001.

6. D. Bandyopadhyay, C. Bhattacharya, K. Krishan, S. Bhattacharya, S. K. Basu, A. Chatterjee, S. Kailas, A. Shrivastava, K. Mahata: "E_ect of input angular momentum distribution in the decay of light compound system", Abstracts book of Intnl. Nuclear Physics Conference, July 30-Aug. 3, 2001, Berkeley, U.S.A, Page 276.

7. S. K. Bandyopadhyay, Pintu Sen, P. Barat and P. Mukherjee: "Di_erence betweeh Bi- 2212 and (Bi,Pb)-2223 with respect to Irradiation Induced Oxygen Knock-out", Intnl. Symp. on Advances In Superconductivity And Magnetibm, Materials Magnetism And Devices, Sept, 25-28, 2001, Mangalore, India.

8. S. K. Bandyopadhyay, Pintu Sen, P. Barat and P. Mukherjee: "The study of Grain Boundary Characteristics of Proton irradiated textured polycrystalline $Bi_2Sr_2CaCu_2O_{8+x}$ and $Bi_{1.84}Pb_{0.34}Sr_{1.91}Ca_{2.03}Cu_{3.06}O_{10+x}$ Superconductors", Intnl. Symp. on Advances In Superconductivity And Magnetism, Materials Magnetism And Devices, Sept, 25-28, 2001, Mangalore, India.

9. Tapas Bandyopadhyay and P. K. Sarkar: "Measurement and calculation of neutron dose streaming through ducts in particle accelerators", Proc. 14th National symp. on radiation physics, GNDU, Amritsar, Nov 1-3, 133, 2001.

10. S. K. Basu: "Nuclear structure studies with large gamma arrays - Indian prospects", Invited talk delivered at DAE-BRNS symp. on Nuclear physics, SINP, Kolkata, Dec. 26-30 , 2001.

11. C. Bhattacharya, K. Mullick, T. Bhattacharjee, P. Das, S. R. Banerjee, D. N. Basu, A. Ray, S. Bhattacharya, K. Krishna, S. K. Basu: "Fragments emission in $^{16}O + ^{27}Al$ at E_{lab} = 116 MeV", Abstracts book of Intnl. Nuclear Physics Conference, July 30-Aug. 3, 2001, Berkeley, U.S.A, Page 277.

12. C. Bhattacharya, K. Mullick, T. Bhattacharjee, P. Das, S. R. Banerjee, D. N. Basu, A. Ray, S. Bhattacharya, K. Krishna, S. K. Basu: "Fragments emission in $^{16}O + ^{27}Al$ at E_{lab} = 116 MeV", Proc. DAE Symposium on Nucl. Phys. Vol. 44B 200, 2001.

13. N. C. Bhattacharya: "Role of Nuclear Science and Technology for the Societal evelopment", Proc. Seminar on developmental reforms by Dept. of Culture, Govt. of India, Bolepur, W. B, Feb.9-10, 128, 2001.

14. N. C. Bhattacharya: "Nuclear power and environmental pollution", Proc. National Conference on energy and environmental pollution, Haldia, W. B, June 9-10, 2001.

15. S. Bhattacharya, S. Chanda, T. Bhattachajee, S. S. Ghugre, S. K. Basu, R. K. Bhowmik, S. Muralithar and R. P. Singh: "Prompt and delayed spectroscopy of ^{141}Pm", Proc. DAE Symposium on Nucl. Phys. Vol. 44B 102, 2001.

16. T. Bhattacharjee, S. Chanda, S. Bhattacharya, S. K. Basu, Chatterjee, M. B. Pattabiraman, N. S., S. S. Ghugre, R. K. Bhowmik, S. Muralithar, B. Mukherjee, R. P. Singh: "High Spin states in odd-odd ^{136}La using Clover Array", Proc. DAE Symposium on Nucl. Phys. Vol. 44B, 98, 2001.

17. S. Chanda, T. Bhattacharjee, S. Bhattacharya, M. B. Chatterjee, S. K. Basu, R. K. Bhowmik, S. Muralithar, B. Mukherjee, R. P. Singh, N. S. Pattabiraman and S. S. Ghugre: "High Spin spectroscopy of ^{137}La using Clover Array", Proc. DAE Symposium on Nucl. Phys. Vol. 44B 44, 2001.

18. Santanu Chakrabarti and S. K. Chatterjee: "Present Scenario on Applications of Radiation and Radioisotopes in Industries Located in Eastern India - Some Observations and Inference", Proc. of International Conference, NIC - 2001, 566, Mumbai, Dec. 12, 2001.

19. Subhasis Chattopadhyay: "High p_T physics at STAR", Plenary talk delivered at the 4th Intnl. Conf. on Physics and Astrophysics of Quark Gluon Plasma, Jaipur, India, Nov 26-30, 2001.

20. Subhasis Chattopadhyay: "Estimating the energy dependence of the elctron-hadron discrimination in STAR using the lectromagnetic calorimeter", STAR note SN 0414.

21. 21. Subhasis Chattopadhyay: "Measuring the soft photon production with the preshower section of STAR EMC", STAR note SN 0423.

22. Gargi Chaudhuri and Santanu Pal: "Transient phenomena in nuclear fission", Proc. DAE Symposium on Nucl. Phys. Vol. 44B 182, 2001.

23. P. Das, A. Ray, S. R. Banerjee: "Probing hot nuclear medium with a-particles", DAE-BRNS Symposium on Nuclear Physics, 44B, 105, 2001.

24. P. Das, A. Ray, C. Bhattacharya, K. Mullick, T. Bhattacharjee, S. R. Banerjee, D. N. Basu and S. Bhattacharya: "Evidence of departure from transition-state statistical model in di_erent mass regions", DAE-BRNS Symposium on Nuclear Physics 44B, 107, 2001.

25. P. Das, A. Ray, S. K. Saha, S. K. Das, J. J. Das, N. Madhavan, S. Nath, P. Sugathan: "Change in life-time of 7Be in di_erent environments", DAE-BRNS Symposium on Nuclear Physics, 44B, 372, 2001.

26. Udayan De, A. Sarkar, A. Sanyal, K. C. Varma, Soma Dey, D. Banerjee and Sikha Varma: “Novel findings for Di_erently Heat Treated CdO”, Oral presentation at the DAE Solid State Physics Symp. BARC (Mumbai), 26-30 Dec. 2001.

27. Udayan De: “PAS probing of superconducting transition in oxides and of impurityinduced conduction in mullites”, Intnl. workshop on ‘defects in correlated Electron Systems’, Dresden, Germany, 21-26 july, 2001.

28. Madhusudan Dey and Amitava Roy: “Remote video monitoring throgh LAN”, Proc. DAE Symposium on Nucl. Phys. Vol. i34 446, 2001.

29. Madhusudan Dey, Amitava Roy and S. R. Banerjee: “Experiment configuration through CAENET network”, Proc. DAE Symposium on Nucl. Phys. Vol. i10 398, 2001.

30. M. K. Dey, P. R. Sarma and R. K. Bhandari: “A group of codes for finding the pole profile in quadrupoles with high field quality”, 16th Intl. Conf. on Cyclotrons and Their Applications (East Lansing), 2001.

31. D. P. Hajra: “Superconducting Cable Splicing Technique for K-500 cyclotron coils”, Eighteen National Symp. on Cryogenics (ENSC-2001), Nov. 21-23, NPL, New Delhi.

32. M. Maiti, M. Nandy, S. N. Roy and P. K. sarkar: “Neutron Emissions from Intermediate Energy Proton Induced Nuclear Reactions”, Proc. DAE Symposium on Nucl. Phys. Vol. 44B 164, 2001.

33. A. Mitra, S. Ganguly, S. Ghosh, S. Sinha, B. R. Sarkar: “Usefulness of correlative imaging of MDP bone scan and marrow scan in early detection of bone metastases in a patients with breast cancer: A critical review”, 33rd Annual Conf Of Soc. of Nuclear Medicine Of India (Abstract), Dec 2001 (B-10).

34. K. Mullick, C. Bhattacharya, T. Bhattacharjee, P. Das, S. R. Banerjee, D. N. Basu, A. Ray, S. Bhattacharya, K. Krishan, S. K. Basu and M. Chatterjee: “Fragment emission study of ^{16}O + ^{28}Si at E_{lab} = 116 MeV”, Proc. DAE Symposium on Nucl. Phys. Vol. 44B 158, 2001.

35. M. Nandy and P. K. Sarkar: “Production of neutrons and other nuclides in a proton induced Pb spallation neutron source”, Proc. 14th National symp. on radiation physics, GNDU, Amritsar, Nov 1-3, 306, 2001.

36. M. Nandy and P. K. Sarkar: “Spallation Yield from p + ^{206}Pb reaction at 1 GeV”, Proc. DAE Symposium on Nucl. Phys. Vol. 44B 266, 2001.

37. Santanu Pal and Gargi Chaudhuri: “Fission dynamics of hot nuclei from Langevin equation”, Intnl. Nuclear Physics Conference, July 30-Aug. 3, 2001, Berkeley, U.S.A, Page 328, 2001.

38. M. H. Rashid and R. K. Bhandari: “Good Performance of ECRIS by Gas-mixing, How?”, Proc. DAE Symposium on Nucl. Phys. Vol. 44B 400, 2001.

39. M. H. Rashid and R. K. Bhandari: “Profile of Loss Cone on Plasma Surface of the 14.4 GHz Ion Source in Kolkata”, 16th Intl. Conf. on Cyclotrons and Their Applications (East Lansing), 2001.

40. M. H. Rashid: “Particle Accelerator development: Global and National”, Lectures delivered in the academic college in Aligarh Muslim University, India, April, 2001.

41. M. H. Rashid and R. K. Bhandari: “Design and Field Configuration for a 14.4 GHz ECR Ion Source in Kolkata”, 16th Intl. Conf. on Cyclotrons and Their Applications (East Lansing), 2001.

42. M. H. Rashid and R. K. Bhandari: “Profile of Loss Cone and Magnetic Stress on Resonance Surface of the 14.4 GHz ECRIS”, Proc. Second Asian Particle Accelerator Conf. (APAC01), Beijing, China, 789, 2001.

43. A. Ray, P. Das, S. R. Banerjee, S. Kailas, A. Chatterjee, S. K. Dutta, A. De: “Observation of increasing fusion hindrance at higher exit channel excitation energy: possible formation of neutron rich neck region”, Poster presented at International Nuclear Physics Conference 2001, held at Berkeley, Calofornia, USA, July 30-August 3, 2001.

44. M. Rousseau, C. Beck, C. Bhattacharya, V. rauch, R. M. Freeman, F. Haas, O. Dorvaux, K. Eddahbi, O. Stezowski, S. Szilner, D. Mahboub, A. Szanto de Toledo, A. Hachem, E. Martin, S. J. Sanders: “Search for very elongated nuclear shapes induced by Be cluster emission”, Abstracts book of Intnl. Nuclear Physics Conference, July 30-Aug. 3, 2001, Berkeley, U.S.A, Page 276.

45. R. Saha, H. P. Sil, D. N. Rawat, C. Bhattachrya and R. P. Sharma: “Ultra-thin silicon surface barrier detectors for heavy-ion experiments”, Proc. DAE Symposium on Nucl. Phys. Vol. 44B 456, 2001.

46. Alodeep Sanayl, K. C. Varma, A. Sarkar, Udayan De: “High conductivity in Heat Treated CdO”, Intnl. workshop on ‘defects in correlated Electron Systems’, Dresden, Germany, 21-26 july, 2001.

47. A. Sarkar, D. Sanyal, Udayan De and D. Banerjee: “Fluctuation conductivity in di_erently heat treated Bi-HTSC”, Intnl. Symp. on Advances in superconductivity and Magnetisim : Materials, mechanisms and Devices (Mangalore) 25-28 sept., 2001.

48. A. Sarkar, Udayan De, D. Sanyal, Ravi Kumar and D. Banerjee: “Defect dependence of fluctuation conductivity in Bi-HTSC”, Intnl. workshop on ‘defects in correlated Electron Systems’, Dresden, Germany, 21-26 july, 2001.

49. S. Sarkar: “Study of Spectral Modification of hadrons through Electromagnetic Probes”, Invited talk at Nuclear Physics Symp of Dept of Atomic Energy (DAE), Dec., 2001.

50. S. Sarkar, J. Alam and T. Hatsuda: “Low Mass Dileptons from Pb+Pb Collisions at 158 A GeV”, talk by S. Sarkar at the Intnl. Conf. on Physics and Astrophysics of Quark Gluon Plasma, Jaipur, India, Nov. 2001.

51. S. K. Sarkar, G. Arjun, P. Saraswathy, M. K. Das, S. Chattopadhyay, N. Ramamoorthy: “Novel concentration process of ^{99m}Tc using anion-exchange chromatography - our experience in a radiopharmacy”, Proc. of BRNS-DAE National Symp. on Nuclear and Radiochemistry, NUCAR2001, Pune,377, 2001.

52. P. R. Sarma, V. S. Pandit and R. K. Bhandari: “A method of designing magnetic channels of improved field quality for superconducting cyclotrons”, 16th Intl. Conf. on Cyclotrons and Their Applications (East Lansing), 2001.

53. P. R. Sarma: “BOAT- a new beam transport code for enhancing resolving power”, Proc. DAE Symposium on Nucl. Phys. Vol. 44B 432, 2001.

54. P. R. Sarma, V. S. Pandit and R. K. Bhandari: “Triple drift bunching system for high bunching e_ciency”, Proc. DAE Symposium on Nucl. Phys. Vol. 44B 392, 2001.

55. Pintu Sen, S. K. Bandyopadhyay, P. Barat and P. Mukherjee: “Junction Characteristics of Proton Irradiated Textured Polycrystalline $Bi_2Sr_2CaCu_2O_{8+x}$ and $Bi_{1.84}Pb_{0.34}Sr_{1.91}Ca_{2.03}Cu_{3.06}O_{10+x}$ Superconductors”, Intnl. Symp. on Advances In Superconductivity And Magnetism, Materials Magnetism And Devices, Sept, 25-28, 2001, Mangalore, India.

56. H. R. Shercli_, P. J. Withers, A. M. Lovatt and P. Barat: “Advanced Statistical Modelling Applied to Recrystallisation of Hot-Worked Al-Mg Alloy”, Proc. 21st Riso Intnl Symp. on materials science, recryslallization- Fundamental Aspects and Relations to Deformation Microstructure, ed. N. Hansen, X. Huang, D. Juul Jensen, E. M. Lauridsen, T. Le_ers, W. Pantlenon, T. J. Sabin and J. A. Wert, Riso National Laboratory, Roskilde, Denmark 2001.

57. D. Singh, N. P. M. Sathik, M. Afzal Ansari , M. Esmail and M. H. Rashid: “Excitation Function for the reaction $^{159}Tb(_,2n)^{161}Ho$”, Proc. DAE Symposium on Nucl. Phys. Vol. 44B 218, 2001.

58. S. Sinha, A. Mitra, S. Ganguly, S. Ghosh, S. Chattopadhyay, M. K. Das: “Infection Imaging with in-house produced Tc^{-99m} labelled polyclonal human IgG - Our experience”, 33rd ANNUAL CONF OF SOC. OF NUCLEAR MEDICINE OF INDIA (Abstract), Dec 2001 (INF-1).

59. G. S. Taki, D. K. Chakraborty, P. S. Chakraborty, S. Ghosh, V. Singh, C. Mallik and R. K. Bhandari: “Performance of a 6.4 GHz ECR Ion Source at VECC”, Proc. Second Asian Particle Accelerator Conf., Beijing, China, 789, 2001.

60. G. S. Taki, D. K. Chakraborty and R. K. Bhandari: “Krypton and Xenon bemas from the 6.4 GHz ECR Ion Source at VECC”, Proc. DAE Symposium on Nucl. Phys. Vol. 44B 452, 2001.

61. S. Tarafdar, T. R. Middya, A. Banerjee, D. Sanyal, D. Banerjee, K. C. Varma and Udayan De: “Positron annihilation and Ion-Conductivity studies of PEO-NH_4ClO_4 complexes”, Oral Paper, Symp. A: “Materials for Advanced Batteries and Fule Cells” of the “Intnl. Conf. on Materials for Advanced Technologies (ICMAT-2001)”, (NUS, Singapore) 1-6 July, 2001.
