

Publications from RIB project group

Journals

1. Physics Design of rod type proton Radio Frequency Quadrupole Linac, C. Das, S. Dechoudhury, H. K. Pandey, V. Naik, A. Chakrabarti, *JINST 12 T (2017) 02005*
2. Positron Annihilation Spectroscopic Investigation on the Origin of Temperature Dependent Electrical Response in Methylammonium Lead Iodide Perovskite, J. Dhar, S. Sil, A. Dey, P. P. Ray and D. Sanyal, *J of Phys. Chem. Lett.* 8 (2017) 1745.
3. Positron annihilation spectroscopic characterization of defects in wide band gap oxide semiconductors, A. Sarkar, H. Luitel, N. Gogurla and D Sanyal, *Mat. Sc. Exp.* 4 (2017) 35909.
4. Defect generation and recovery in polycrystalline ZnO during annealing below 300 °C- studied by in-situ positron annihilation spectroscopy, H. Luitel, D. Sanyal, N. Gogurla, A. Sarkar, *J of Mat. Science* 52 (2017) 7615.
5. Investigation Investigation of Ion Mediated Charge Transport in Methylammonium Lead Iodide Perovskite J. Dhar, S. Sil, A. Dey, D. Sanyal and P. P. Ray, *J of Phy. Chem. C* 121 (2017) 5515.
6. Resonance Raman scattering and ab initio calculation of electron energy loss spectra of MoS₂ nanosheets, A. Chakraborti, A. S. Patel, P. K. Kanaujia, P. Nath, G. V. Prakash, D. Sanyal, *Phys. Lett. A* 380 (2016) 4057.
7. Origin of the order-disorder transition and the associated anomalous change of thermopower in AgBiS₂ nanocrystals: A combined experimental and theoretical study, S. N. Guin, S. Banerjee, D. Sanyal, S. K. Pati, and K. Biswas, *Inorganic Chem.* 55 (2016) 6323.
8. Positron annihilation lifetime characterisation of oxygen ion irradiated rutile TiO₂, H. Luitel, A. Sarkar, M. Chakrabarti, S. Chattopadhyay, K. Asokanand D. Sanyal, *Nuclear Instru. & Methods B* 379 (2016) 215.
9. The influence of projectile ion induced chemistry on surface pattern formation, P Karmakar and B. Satpati, *J. Appl. Phys.* 120 (2016) 025301.
10. Characteristics of Er₂O₃ Added ZnO-Based Varistor Ceramics, S. Roy, Tapatee Kundu Roy, D. Das, *Materials Science Forum*, 880 (2017) 105.
11. Comparison of yields of neutron-rich nuclei in proton- and photon-induced ²³⁸U fission, F. A. Khan, Debasis Bhowmick, D.N. Basu, M. Farooq, and Alok Chakrabarti, *Phy. Rev.* C94, 054605 (2016)
12. Theoretical and experimental investigation of possible ferromagnetic ordering in wide band gap ZnO and related systems; A. Sarkar, D. Sanyal, S. Dechoudhury, D. Bhowmick, T. Rakshit, A. Chakrabarti, *Nuclear Instru. & Methods B* 379 (2016) 18.
13. Development of deflector cavity and RF amplifier for bunch length detector system; H.K. Pandey, T.K. Bhattacharyya and A. Chakrabarti, *Journal of Instrumentation*, Vol. 11 ,no.02 (2016), T02001
14. Energy Dependence of exotic nuclei production cross sections by photo nuclear reaction in GDR range; Debasis Bhowmick, F. Khan, F; Atta, D N Basu, Alok Chakrabarti, *Canadian Journal of Physics*, Vol.94(2)(2016)p243.
15. Coupler induced transverse kick and emittance growth in single cell elliptical cavities of 10 MeV superconducting electron linac injector; Siddhartha Dechoudhury, Hemendra Kumar Pandey, Dipta Pratim Dutta, Vaishali Naik, Alok Chakrabarti, Yu-Chiu Chao and Robert E. Laxdal, *Journal of Instrumentation* Vol.10, no.3 (2015) T03001
16. Yields of neutron-rich nuclei by actinide photofission in the giant dipole resonance region; Debasis Bhowmick, Debasis Atta, D. N. Basu, and Alok Chakrabarti; *Phys. Rev. C* 91, (2015) 044611
17. Control of coherence in a ladder type system with double resonance optical pumping and electromagnetically induced transparency; Md. Sabir Ali, Ayan Ray, Alok Chakrabarti, *European Physical Journal D* (2015), 69:41
18. Multiple charge beam dynamics in alternate phase focusing structure; S. Dechoudhury, Alok Chakrabarti, and Y.-C. Chao, *Phys. Rev. ST Accel. Beams* 17, 074201 (2014)
19. Rare ion beams – the new road to understand the universe, Alok Chakrabarti, *CURRENT SCIENCE*, Vol. 108, No. 1, 10 January 2015
20. Room temperature ferromagnetic ordering in 4MeV Ar⁵⁺ irradiated TiO₂, D Sanyal, Mahuya Chakrabarti, P Nath, A Sarkar, D Bhowmick and A Chakrabarti, *J. Phys. D: Appl. Phys.* 47 (2014) 025001
21. Application of repumping laser in optical switching, Ayan Ray, Md. Sabir Ali, Alok Chakrabarti, *Optics & Laser Technology* Volume 60, (2014), Pages 107–110

22. A Gas-Jet Transport and Catcher Technique for On-line Production of Radioactive Ion Beams using an Electron Cyclotron Resonance ion-source, V. Naik, A. Chakrabarti, M. Bhattacharjee, P. Karmakar, A. Bandyopadhyay, S. Bhattacharjee, S. Dechoudhury, M. Mondal, H.K. Pandey, D. Lavanyakumar, T.K. Mandi, D.P. Dutta, T. Kundu Roy, D. Bhowmick, D. Sanyal, S.C.L. Srivastava, A. Ray and Md. S. Ali; *Rev. Sci. Instrum.* Vol.84, (2013) 033301.
23. Temperature dependent resistivity study on zinc oxide and the role of defects, Tapatee Kundu Roy, D.Sanyal, Debasis Bhowmick, Alok Chakrabarti, *Materials Science in Semiconductor Processing*, 16 (2013) 332-336.
24. Photoluminescence and positron annihilation spectroscopic investigation on a H⁺ irradiated ZnO single crystal; A. Sarkar, M. Chakrabarti, D. Sanyal, D. Bhowmick, S. Dechoudhury, A. Chakrabarti T. Rakshit and S. K. Ray *J. Phys.: Condens. Matter* 24 (2012) 325503
25. Interplay of 4f–3d Magnetism and Ferroelectricity in DyFeO₃; B. Rajeswaran, D. Sanyal, M. Chakrabarti, Y. Sundarayya, A. Sundaresan and C. N. R. Rao, *EuroPhys. Lett* 101 (2013) 17001
26. Positron annihilation characterization of nanocrystalline ZnO ; M. Chakrabarti, D. Jana and D. Sanyal *Vacuum* 87 (2013) 16.
27. Improved and delayed radiative emission response of Eu-doped BaTiO₃ nanoscale system; M. Borah, D. Mohanta, D. Sanyal, M. Chakrabarti, and D. Jana, *Eur. Phys. J. Appl. Phys.* 59 (2012) 10402.
28. Observation of high ferromagnetic ordering in Fe implanted ZnO at room temperature: D. Sanyal, M. Chakrabarti, T. Kundu Roy, D. Bhowmick, S. Dechoudhury, A. Badyopadhyay, and Alok Chakrabarti: in press NIM B (2009)
29. Coulomb explosion sputtering of selectively oxidized Si: P. Karmakar, S. Bhattacharya, V. Naik, A. K. Sinha, and A. Chakrabarti; to be published in Applied Surface Science
30. Beta decay study of Tz = -2 proton-rich nucleus ²⁴Si: Y. Ichikawa, T. Kubo, N. Aoi, V. Banerjee, A. Chakrabarti, et. al. and H. Sakurai; in press European Physics Journal A
31. Role of initial surface roughness on ion induced surface morphology: P. Karmakar, S. A. Mollick, D. Ghose, and A. Chakrabarti, *Applied Phys. Letts.* 93 (2008) 103102
32. Observation of room temperature ferromagnetism in Mn-Fe doped ZnO, Mahuya Chakrabarti, Siddhartha Dechoudhury, D. Sanyal, Tapatee Kundu Roy, Debasis Bhowmick and Alok Chakrabarti *J. of Phys. D* 41 (2008) 135006.
33. Defect studies in annealed ZnO by positron annihilation spectroscopy, D. Sanyal, Tapatee Kundu Roy, Mahuya Chakrabarti, Siddhartha Dechoudhury, Debasis Bhowmick and Alok Chakrabarti *J. of Phys. C* 20 (2008) 045217.
34. Particle size dependence of magnetic, optical and defect parameters in mechanically milled Fe₂O₃, Mahuya Chakrabarti, A. Banerjee, D. Sanyal, Manas Sutradhar and A. Chakrabarti *J of Mat. Sciences* 43 (2008) 4175.
35. Sintering studies of nano-crystalline zinc oxide, Tapatee Kundu Roy, Debasis Bhowmick, Dirtha Sanyal, Alok Chakrabarti, *Ceramics International*, 34 (2008)81.
36. The radioactive ion beam project at VECC, Kolkata – Its present status and future plans Alok Chakrabarti; *Nucl. Instru. & Meth. of Phys. B* 261 (2007) 1018.
37. The origin of ferromagnetism and defect-magnetization correlation in nanocrystalline ZnO, D. Sanyal, Mahuya Chakrabati, Tapatee Kundu Roy and Alok Chakrabarti, *Phys. Letts. A* 371 (2007) 482
38. 33.7 MHz heavy-ion radio frequency quadrupole linac at VECC Kolkata, A. Chakrabarti, V. Naik, S. Dechoudhury, A. Bandyopadhyay, M. Mondal, H. K. Pandey, T. K. Roy, D. Sanyal, and D. Bhowmick, *Rev. Sci. Instrum.* 78, (2007) 043303.
39. Preparation of Zn(1-x)Cd_xFe₂O₄ (x = 0.0, 0.1, 0.3, 0.5, 0.7 and 1.0) ferrite samples and their characterization by Mossbauer and positron annihilation techniques, Mahuya Chakrabarti, D. Sanyal and A. Chakrabarti *J. Phys. C* 19 (2007) 236210.
40. A helium jet coupled On-Line Isotope Separator Facility at Variable Energy Cyclotron Centre, Kolkata , Arup Bandyopadhyay, V. Naik, D. Bhattacharya, S. De Choudhury, S. K. Nayak, M. Mondal, S. Chattopadhyay, A. Polley, A. Chakrabarti; *Nucl. Instrum. & Method A* 562 (06) 41.
41. Design of LINAC post-accelerator for VECC RIB facility using realistic field, Arup Bandyopadhyay, O. Kamigaito, Sumanta Kumar Nayak, Hemendra Kumar Pandey, Manas Mondal and Alok Chakrabarti; *Nucl. Instrum. & Method A* 560 (2006) 182.
42. Design of a “two-ion source” Charge Breeder using ECR ion source in two frequency mode, Damayanti Naik, Vaishali Naik, Alok Chakrabarti, S. Dechoudhury, Sumanta Kumar Nayak, H.K. Pandey and Takahide Nakagawa, *Nucl. Instrum. & Method A* 547 (2005) 270.

43. Doppler broadening measurements of the electron-positron annihilation radiation in nanocrystalline ZrO₂, Mahuya Chakrabarti, D. Bhowmick, S. Chattopadhyay, A. Sarkar, D. Sanyal, S. Dechoudhury, and Alok Chakrabarti; *J. of Mat. Sc.* 40 (2005) 5265.
44. Preparation and optimization of targets for production of radio-active ions: Studied by heavy ion beams from VEC, Debasis Bhowmick, D. Naik, Md. Eqbal, D. Sanyal, S. Deychoudhury, V. Banerjee, A. Bandyopadhyay, P. Deb, D. Bhattacharyya and Alok Chakrabarti, *Nucl. Instrum. & Method A* 539 (2005) 54.
45. Grain size dependence of optical properties and positron annihilation parameters in Bi₂O₃ powder, Mahuya Chakrabarti, Sreetama Dutta, S. Chattapadhyay, A. Sarkar, D. Sanyal and Alok Chakrabarti; *Nanotechnology* 15 (2004) 1792.
46. Doppler broadening measurements of positron annihilation in Bi-based high T_c superconductor along two different crystallographic directions, Mahuya Chakrabarti, A. Sarkar, S. Chattapadhyay, D. Sanyal and Alok Chakrabarti; *Physica C* 416 (2004) 25.
47. The design of a four-rod RFQ LINAC for VEC-RIB facility, Alok Chakrabarti, Vaishali Naik, S. Dechoudhury, D. Bhowmick, D. Sanyal, A. Bandyopadhyay, T.K. Chakraborty, M. Mondal, S. Nayak, H. Pande, T.K. Bhaumik, A. Giri, D. Bhattacharya, T.J. Sen, S. Bhattacharya, O. Kamigaito, A. Goto, Y. Yano – *Nucl. Instrum. & Meth.* A535 (2004) 599.
48. The Radioactive Ion Beams project at VECC, Kolkata – a status report, A. Chakrabarti ; *Pramana* 59 (2002) 923.
49. The design of a Radio Frequency Quadrupole linac for the RIB project at VECC Kolkata, V. Banerjee, A. Chakrabarti, Arup Bandyopadhyay, T.K. Bhaumik, M. Mondal, T. K. Chakraborty, H. Pande, O. Kamigaito, A. Goto, Y. Yano ; *Pramana* 59 (2002) 957.
50. Beta-delayed proton decay of ²⁴Si. V. Banerjee, T. Kubo, A. Chakrabarti, H. Sakurai, Arup Bandyopadhyay, K. Morita, S.M. Lukyanov, K. Yoneda, H. Ogawa and D. Beaumel. *Phys. Rev. C* 63 (2001) 024307.
51. Design of a two-ion-source (2-IS) beam transport line for the production of multi charged radioactive ion beams. V. Banerjee, A. Chakrabarti, A. Bandyopadhyay, S. Chattopadhyay, A. Polley, T. Nakagawa, O. Kamigaito, A. Goto, Y. Yano. *Nucl. Instrum. & Meth.* A447(2000) 345
52. The Radioactive Ion Beam facility at VECC Calcutta – the aim and future, A. Chakrabarti ; *Ind. Journ. Phys* 73S (1999) 131.
53. Empirical formalism for projectile fragmentation and production of new neutron-rich nuclei with RIBs. D. Bhaumik, A. Chakrabarti, D.N. Basu, P. Ghosh, R. Goswami. *Mod. Phys. Lett.* A13 (1998) 2665.
54. The Radioactive Ion Beams facility at VECC Calcutta – a status report, A. Chakrabarti ; *Journ. of Phys. G : Nucl. Part. Phys.*, 24 (1998) 1361.
55. Design of the RFQ & Linac post accelerator for VEC-RIB facility, A. Bandyopadhaya, O Kamigaito, A. Chakrabarti, V. Banerjee, P. Ghosh, A Goto & Y. Yano ; *Journ. of Phys. G : Nucl. Part. Phys.*, 24 (1998) 1367.
56. Beta delayed proton spectroscopy of ²⁴Si, V. Banerjee, T. Kubo, A. Chakrabarti, H. Sakurai, A. Bandyopadhyay, K. Morita, S.M. Lukyanov, K. Yoneda, H. Ogawa and D. Beaumel. *Journ. of Phys. G : Nucl. Part. Phys.*, 24 (1998) 1403.
57. Radioactive Ion Beams - Global scenario and National efforts : A. Chakrabarti ; *Radiat. Phys. Chem.* 51 (1998) 497.

Publications in conferences/symposia

1. Yields of n-rich nuclei in P- and γ - induced ²³⁸U fission, F. A. Khan, Debasis Bhowmick, D.N. Basu, M. Farooq, and Alok Chakrabarti, *Proceedings of the DAE-BRNS Symp. on Nucl. Phys.* 61 648 (2016)
2. The ripple coarsening on Si (100) by different energies of N⁺ ion beam irradiation, D. Bhowmik, P. Karmakar, 61st DAE Solid State Physics Symposium at Bhubhaneswar on 26th to 30th Dec, 2016.
3. Physicochemical variation of mica surface by low energy ion beam irradiation, D. Bhowmik, P. Karmakar, International Conference on Ion Beams in Materials Engineering and Characterizations (IBMEC 2016) at IUAC New Delhi on 28th sept to 1st Oct, 2016.
4. Nano dot, wire and well structure formation by self-masking ion implantation, P Karmakar, Workshop on Advances in Nanostructured Materials: Applications and Perspective, UGC-DAE Consortium for Scientific Research, Kolkata and Assam Kaziranga University, Jorhat, June 01-02, 2016.

5. Development of high performance ZnO-based varistor, S. Roy, Tapatee Kundu Roy, D. Das, in: Proceedings of Research Scholars Colloquium (RSC 2016), ISBN: 978-93-80813-44-8, (2016) pp 161-163.
6. Chiranjib Das, Siddhartha Dechoudhury, Hemendra Kumar Pandey, VaishaliNaik, AlokChakrabarti, "Design of rod-type high current proton radio frequency quadrupole accelerator for ANURIB project @ VECC", Indian Particle Accelerator Conference (2015)
7. Md. Zamal Abdul Naser, Siddhartha Dechoudhury, ManasMondal, A. Polley, H.K. Pandey, D.P.Dutta, S.K. Thakur, Arup Bandyopadhyay, VaishaliNaik, AlokChakrabarti, "Present status of design, installation and testing of electron gun & low energy beam transport line of Electron Linac at VECC", Indian Particle Accelerator Conference (2015)
8. Md. Zamal Abdul Naser, Siddhartha Dechoudhury, H.K. Pandey, Chiranjib Das, Arup Bandyopadhyay, VaishaliNaik, AlokChakrabarti, "Design of a RF Separator based beam-line for simultaneous electron beam delivery in ANURIB facility", Indian Particle Accelerator Conference (2015)
9. H. K. Pandey, S. Dechoudhury, T. K. Bhattacharya, A. Chakrabarti "Design and development of a non-interceptive bunch length measurement system for RFQ accelerator of RIB", Indian Particle Accelerator Conference (2015)
10. EIT in all optical switching, Md. Sabir Ali, Ayan Ray and AlokChakrabarti, Book of Abstracts of International Conference on Light Quanta: Modern Perspectives and Applications, University of Allahabad, December 14-16, 2015 (p. no. 24).
11. F. A. Khan, DebasisBhowmick, Debasis Atta, D. N. Basu, M. Farooq and AlokChakrabarti; Proceedings of the DAE-BRNS Symp. OnNucl. Phys. 60, 634 (2015)
12. Low energy ion beams for surface and interface engineering, PrasantaKarmakar, Workshop on the use of Low Energy Ion Beams, Institute of Physics, Bhubaneswar, Nov 7-9, 2015.
13. "Design and Development of Radiation Hardened 2.5GHz Clock Multiplier Unit (CMU) with 0.18 μ m for CBM-MUCH detector electronics" H. K. Pandey and T. K. Bhattacharya IEEE-NSS 2016, Strasbourg, France.
14. "Design and development of a non-interceptive bunch length measurement system for RFQ accelerator of RIB" H. K. Pandey; S. Dechaudhuri; T. K. Bhattacharya; A. Chakrabarti InPAC -2015, TIFR-Mumbai, India.
15. "Development and characterization of grounded grid triode amplifier for Re-buncher of Radioactive Ion Beam line of VECC" H. K. Pandey, T. K. Mandi, H. Yadav, Y. Kumar, K. P. Ray, A. Chakrabarti InPAC -2015, TIFR, Mumbai. (Selected for Best poster in InPAC 2015)
16. T. K. Mandi, S. Saurav, H. K. Pandey, A. Bandyopadhyay "Design and development of Low Level RF (LLRF) control system" InPAC 2015, TIFR, Mumbai.
17. Md. Zamal Abdul Naser, Siddhartha Dechoudhury, Manas Mondal, A. Polley, H.K. Pandey, D.P. Dutta, S.K. Thakur, Arup Bandyopadhyay, Vaishali Naik, Alok Chakrabarti "Present status of design, installation and testing of electron gun & low energy beam transport line of Electron Linac at VECC" InPAC 2015, TIFR, Mumbai
18. H. K. Pandey and T. K. Bhattacharya Total Ionizing Dose (TID) effect test of developed 2.5 GHz radiation hardened Clock Multiplier Unit (CMU), Proceedings of the DAE-BRNS Symp. on Nucl. Phys. 60 (2015).
19. Design and Development of RF Deflector Cavity for Accelerated Beam Bunch-length Measurement; H. K. Pandey, S. Dechoudhury, D. P. Dutta, T. K. Mandi, T. K. Bhattacharya and A. Chakrabarti "2014 IOP Conf. Ser.: Mater. Sci. Eng. 67 011001
20. Simulation of coupler kicks in 10 MeV superconducting e-linac for VEC – ANURIB facility - S. Dechoudhury, H. K. Pandey, V. Naik, A. Chakrabarti; DAE-BRNS Indian Particle Accelerator Conference INPAC 2013, Kolkata, Nov. 19 – 22, 2013.
21. A 4K-2K cryogenic test set-up for the superconducting electron linac at VECC - M. Ahammed, S. Ghosh, S. Saha, S. Singh, B. Hembram, K. Mazumder, S. Biswas, S. Sur, A. Duttagupta, M. Mondal, T.K. Bhattacharya, S. Pal, R.C. Yadav, V. Naik, G. Pal, A. Chakrabarti, R.E. Laxdal. N. Mayer, A. Kove -snikov, DAE-BRNS Indian Particle Accelerator Conference INPAC 2013, Kolkata, Nov. 19 – 22, 2013.
22. Development of capture cryomodule (CCM) for superconducting e-linac at VECC - M. Mondal, V. Naik, S. Dechoudhury, H.K. Pandey, A. Bandyopadhyay, S. Saha, M. Ahammed, S. Ghosh, A. Duttagupta, R.E. Laxdal. N. Mayer, A. Kovesnikov and A. Chakrabarti; DAE-BRNS Indian Particle Accelerator Conference INPAC 2013, Kolkata, Nov. 19 – 22, 2013.
23. EM simulation for capture cryo module cavity and optimization of rf power coupler - H.K. Pandey, D. P. Dutta, S. Dechoudhury, V. Naik, A. Chakrabarti, A. K. Mitra, V. Zvyagintsev, R.E. Laxdal; DAE-BRNS Indian Particle Accelerator Conference INPAC 2013, Kolkata, Nov. 19 – 22, 2013.

24. Beam Dynamics simulation and Optimization of 10 MeV e-Linac injector for VEC-RIB facility; S. Dechoudhury, Vaishali Naik, Alok Chakrabarti, Gabriel Goh, Friedhelm Ames, Richard Baartman, Yu-Chiu Chao, R E Laxdal, Marco Marchetto, Lia Meringa, Fang Yan, to be pub. Proc. of Linac12 conf. Sept 9-14, 2012, Tel-Aviv Israel
25. First online production of Radioactive Ion Beams at VECC; Vaishali Naik, Alok Chakrabarti, Mahuwa Bhattacharjee, Prasanta Karmakar, Sampa Bhattacharjee, Arup Bandyopadhyay, Siddhartha Dechoudhury, Dodi Lavanya Kumar, Manas Mondal, H.K. Pandey, T.K. Mandi, D.P. Dutta, Tapatee Kundu Roy, Debasis Bhowmik, Dirtha Sanyal, Ayan Ray, Md. Sabir Ali, S. C. L. Srivastava, P.Y. Nabhiraj; EMIS-2012 conf, Dec 2-7, 2012, Matsue, Japan
26. The ANURIB project at VECC – Plans and Preparations; Alok Chakrabarti, Arup Bandyopadhyay, Vaishali Naik, Siddhartha Dechoudhury, Manas Mondal, P.Y. Nabhiraj; EMIS-2012 conf, Dec 2-7, 2012, Matsue, Japan
27. RF Distribution and Control System for the accelerators of the VEC-RIB Facility; H.K.Pandey, T.K.Mandi, D.P.Dutta, S. Basak, A. Chakrabarti, Arun Kumar, K. P. Ray; PCaPAC-2012,VECC, Kolkata.
28. Analysis and Measurement of High Power Vacuum- Tube RF Transmitters: Matrix Method; H. K. Pandey, A. Chakrabarti and K. P. Ray , IEEE-International Conference on Computers and Devices for Communication (CODEC), Kolkata,17 -19 December, 2012.
29. Beta-delayed proton and gamma spectroscopy of ^{24}Si : Y. Ichikawa, T. Kubo, V. Banerjee, A. Chakrabarti, et.al: RIKEN Acc. Prog. Rep. 39 (2006) 65
30. Design of RFQ – LINAC beam line for VEC RIB facility: S. Dechoudhury, D. Bhowmick, V. Banerjee, D. Sanyal, A. Chakrabarti InPAC, (2005) 145.
31. Design of “Two Ion Source” charge breeder with dual frequency electron cyclotron resonance ion source: D. Naik, V. Naik, A. Chakrabarti, S. Dechoudhury, S. K. Nayak, H. N. Pandey, T. Nakagawa, InPAC, (2005) 320.
32. RIB facility at VECC Kolkata – A status report; A. Chakrabarti and R. K. Bhandari, Particle Accelerator Conference, USA 2005.
33. Fabrication & testing of the cold model of the first LINAC cavity for VECC RIB facility:Arup Bandyopadhyay, S. K. Nayak, H. K. Pandey and A. Chakrabarti;DAE-BRNS symp. On Nucl. Phys, Vol 47B (2004) 476.
34. Feasibility study of He-Jet coupled two skimmer system for production of radioactive ion beams: Sumanta Kr. Nayak, D. Naik, V. Banerjee, A. Bandyopadhyay and A. Chakrabarti;DAE-BRNS symp. On Nucl. Phys, Vol 47B (2004) 534.
35. Conceptual design of a two-ion source with dual frequency ECR ion source as charge breeder: D. Naik, V. Naik, S. K. Naik, S. Dechoudhury, H. K. Pandey and A. Chakrabarti;DAE-BRNS symp. On Nucl. Phys, Vol 47B (2004) 576.
36. Thick target simulation studies for RIB:D. Bhowmik, D. Sanyal, S. De Choudhury, V. Banerjee and A. Chakrabarti; DAE-BRNS symp. On Nucl. Phys, Vol 46B (2003) 576
37. Status of the ECR ion source development for the VECC RIB facility : D. Naik, V. Banerjee, T. K. Chakraborty, M. Mondal, H. Pandey, J. S. Kainth, S. Bhattacharya, D. Bhattacharya, L. Mondal, S. K. Roy, A. Bandyopadhyay and A. Chakrabarti, DAE-BRNS symp. On Nucl. Phys. , Vol 45B (2002) 500.
38. First RF tests on the Half-scale RFQ cold model for the RIB project at VECC, Kolkata : A. Chakrabarti, T. K. Bhaumik, H. Pandey, S. Bhattacharya, V. Banerjee, A. Bandyopadhyay and T. J. Sen; DAE-BRNS Symp. on Nucl. Phys. , Vol 45B (2002) 436.
39. Reaching the proton Drip Line And Beyond with Low Energy RIB : P. Ghosh, A. Chakrabarti, V. Banerjee, A. Bandyopadhyay, D.N. Basu. Proc. of DAE Symposium on Nucl. Phys. 39B (1996) 254.
40. Design of an ECRIS for Online production of RI Beams from VEC-RIB Facility : V. Banerjee, A. Bandyopadhyay, A. Chakrabarti, P. Ghosh, S. Bhattacharya, S. Chattopadhyay, A. Polley, T. Nakagawa, A. Goto, Y. Yano. Proc. of DAE Symposium on Nucl. Phys. 39B (1996) 380.
41. Ion Optics Design Modifications of VECC-ISOL System : A. Bandyopadhyay, V. Banerjee, A. Chakrabarti, S. Bhattacharya, S. Chattopadhyay, A. Polley and P. Ghosh. Proc. of DAE Symposium on Nucl. Phys. 39B (1996) 382.
42. The Design of a low- q RFQ LINAC for low q/A Heavy-ion Acceleration : A. Chakrabarti, V. Banerjee, A. Bandyopadhyay, S. Bhattacharya, P. Ghosh, S. Chattopadhyay, A. Polley, J. Chowdury, K.P. Basu, D. Guha, O. Kamigaito, A. Goto and Y. Yano. Proc. of DAE Symposium on Nucl. Phys. 39B (1996) 386.
43. On Beam Bunching Experiments at VECC ISOL System : A. Bandyopadhyay, V. Banerjee, A. Chakrabarti, R.M. Nath, M.D. Trivedi, G.C. Basak, T.K. De, S. Bhattacharya, S. Chattopadhyay, A. Polley and P. Ghosh. Proc. of DAE Symp. on Nucl. Phys. 39B (1996) 386.

44. A proposed RIB facility for measuring reaction rates of astrophysical interest : A. Banerjee, V. Banerjee, A. Chakrabarti, Y.P. Viyogi, V.S. Ramamurthy, R.T. Yadav, Ravi Prasad. Proc. 2nd. Int. Conf. on Phys. and Astrophys. of QGP, Calcutta, 1993.
45. Studies on He-jet transport mechanism : A. Chakrabarti, A. Bandyopadhyay, V. Banerjee, S. Chattopadhyay, A. Polley, S.K. Pardhasaradhi, R.P. Sharma, S. Bhattacharya, P. Ganguly. DAE Symp. on Nucl. Phys. 35B (1992) 462.
46. Performance of the ISOL ion-source in the on-line: some new and surprising observations : A. Chakrabarti, A. Banerjee, S. Chattopadhyay, A. Polley, V. Banerjee, S. Bhattacharya, T. Mukhopadhyay, A. Das, S.K. Pardhasaradhi R.P. Sharma. DAE Symp. on Nucl. Phys. 34B (1991) 379.
47. Production of heaviest proton-rich mirror species 61Ga , 63Ge , 65As : I. Taninata, A. Chakrabarti, M. Yanokura, H. Xu, X. Bai, M. Fujinaki, N. Inabe, K. Kimura, T. Kubo, H. Kumagai, T. Nakagawa, T. Suzuki, T. Mukherjee. 4th Int. Conf. on Nucleus-Nucleus Collision, June 10-14. (1991), Kanazawa, Japan.
48. Identification of Z near 30 nuclei : M. Yanokura, H. Xu, A. Chakrabarti, X. Bai, M. Fujinaki, N. Inabe, K. Kimura, T. Kubo, H. Kumagai, T. Nakagawa, T. Suzuki, T. Mukherjee, I. Tanihata. RIKEN Acc. Progress Report 24 (1990) 17.
49. First Observation of proton-rich 65As : M. Yanokura, H. Xu, A. Chakrabarti, X. Bai, M. Fujinaki, N. Inabe, K. Kimura, T. Kubo, H. Kumagai, T. Nakagawa, T. Suzuki, T. Mukherjee, I. Tanihata. RIKEN Acc. Progress Report 24 (1990) 18.

Thesis

1. "Design and Development of Radio Frequency Quadrupole Linear Accelerator" by Siddhartha Dechoudhury (2011) ; University of Jadavpur, Kolkata.
2. "Studies of different oxides and carbides as a thick target for Radioactive Ion Beam production" by Tapatee Kundu (2012) ; University of Jadavpur, Kolkata.
3. "Design and Development of Isotope Separator and Linac postaccelerator for the RIB facility at VECC, Kolkata" by Arup Bandyopadhyay, VECC(2006) , Jadavpur University, Kolkata.
4. "Production, Transport and Ionization of Radioactive Atoms – a study of key importance to the ISOL type RIB facility at VECC, Kolkata" by Damayanti Naik (2005) , Jadavpur University, Kolkata.
5. "Positron Annihilation Studies on High Temperature Superconductors" by Mahuya Chakrabarti, (2004) University of Calcutta, Kolkata.
6. "Experimental Studies of Exotic Nuclei" by Vaishali Naik, VECC (2003) Jadavpur University, Kolkata.
