

KNOW-HOW AND TECHNOLOGY TRANSFER

Expertise and know-how for designing, fabrication and commissioning of RFID based Hand Held Reader for Attendance Recording system is available in the country with the Department of Atomic Energy and Variable Energy Cyclotron Centre. Several numbers of the first version of the Hand Held RFID Card readers have been successfully operating at the main gate security of VECC since last four years. The entry and departure timings recorded by the employees of VECC through these handheld RFID Card Readers are being treated as official "Record of Attendance". The detail about the technology is available under 'Advance Instrumentation' section of Technology Transfer and Consultancy & Scientific Services at BARC Entrepreneur's Corner. (<http://barc.gov.in/technologies/reader/index.html>).

The same technology has been transferred to M/s A.K.G. Electronics Industries, Kolkata in exchange of appropriate technology transfer fee on 30th May, 2017. A few snaps of the handing over of the technology documents are given below.
