

# Theme Meeting on

## Cryocoolers & Superconductivity

March 19, 2010

Organised by  
VARIABLE ENERGY CYCLOTRON CENTRE, KOLKATA  
&  
INDIAN CRYOGENIC COUNCIL

VEC Centre and several other laboratories in India are pursuing activities in cryogenics and superconductivity. Cryocoolers are potential source of cooling, which are extensively used in frontier research and technology. The workshop will facilitate interactions among experts involved in latest development of cryocoolers, superconductivity and their applications.

### Organising Committee

*R.K. Bhandari (Chairman)*

*G. Pal (Convener)*

*A. Dutta Gupta*

*C. Nandi*

*Sandip Pal*

*S. Saha*

*T.K. Bhattacharyya*

*T.S. Datta*

*U. Bhunia*

### Correspondence:

G. Pal, Convener

Phone: +91 33 2318 3217

Fax: +91 33 2334 6871

Email: [supercool@vecc.gov.in](mailto:supercool@vecc.gov.in)

### Participation:

The workshop will consist of invited lectures only.

Nominations from scientists, engineers, researchers & students in this field are invited. Forms duly filled-in should reach the convener by February 28, 2010.

Registration form can be downloaded from conference webpage.

Registration fee: Rs. 500/-

Participants are expected to arrange for their travel and other costs.

**Last date for nomination: February 28, 2010**

For details visit webpage.
